FELL AMONG THIEVES.

Epworth League Excursionists Who Need Help of Good Samaritans.

POCKETS RIFLED BY NIMBLE FINGERS

Even the Baggage of Some Tourists Was Obtained Through the Use of Stolen Checks—A Number of the League Were Stranded.

Glenwood Springs, Col., July 15.—The thoroughly organized gang of pickpockets operating at Colorado Springs is responsible for a party of about 20 Epworth leaguers becoming stranded here. Men and women alike have been robbed, not only of every cent they had with them, but of railroad tickets as well. Unless the railroads will issue tickets back home on their proof of having purchased and paid for the trip to San Francisco and back they will be compelled to ask aid from the county authorities. In at least ten instances thieves even secured the trunks of their victims by using the stolen baggage checks.

Among those robbed are Dr. J. H. Wilson, wife and daughter, and Miss H. R. Harrington, of Dover, Del. Dr. Wilson's wallet containing tickets for the party, drafts on San Francisco banks and baggage checks were stolen in the crush at the depot in Colorado Springs.

Major S. K. Hooper, general passenger agent of the Denver & Rio Grande railroad, authorized the Glenwood Springs agent to furnish passes to Ogden to stranded passengers who desired to continue their journey west.

Bryan On Ohio Democracy.
St. Louis, July 15.—In his address before the Missouri editors, Mr. Bryan refrained from mentioning the recent action of the Ohio Democrats in passing up the Kansas City platform and in his public statements to the press he declined to be interviewed on that subject, replying to all questions: "I do not care to talk now. I will discuss the Ohio convention and its doings fully in the next issue of my paper. There is too much significance attached to that convention, I think. I do not object to have it distinctly understood," he said, "that I intend to fight to the bitter end every effort to force the abandonment of the Chicago and Kansas City platforms." Mr. Bryan then entered upon a discussion of the colonial policy upon which the Republican administration has entered, declaring it to be his opinion that that policy is now and is likely to be in 1904 the paramount issue before the people of the nation.

Boiler Blew Out.
Sunbury, Pa., July 15.—An excursion boat anchored in the Susquehanna river at the foot of Market street, this city, blew up with terrific force, killing two boys and injuring a dozen other persons, two fatally. One man is missing and may have been killed. The dead: Allen Fetser, aged 14; Artie Fetser, aged 12. Missing: George Frymire, the pilot of the boat. Injured: Charles Keller, 12, internally, will die; Frank Keller, 8, will die; William Pulen, 17; Harry Adams, 13.

All the boys killed and injured were fishing on a nearby wharf when the explosion occurred. The engineer was absent at the time, leaving the boat in charge of the pilot. When he left there was a pressure of 60 pounds in the boiler, and he says he opened the fire door. No cause is given for the explosion.

Sunday at Canton.
Canton, O., July 15.—President and Mrs. McKinley passed a quiet Sunday, spending most of the day in the house or on the front porch. During the early morning, they took a drive to the cemetery and on the return the President left the carriage at the First M. E. church and remained for morning services. There were practically no callers at the house during the day. Several relatives took dinner with the family in the evening.

Monument to Russians.
Tien Tsin, July 15.—A hundred Russian officers, a band of music, two priests from Port Arthur, M. De Giers, the Russian minister, and other members of legation, attended the ceremony of the opening of the new concessions and the unveiling of the monument erected to the memory of the Russians killed during the relief of Peking legations. A majority of the Russians will remain to celebrate the French national fete, July 14.

Got the Bullets.
San Jose, Cal., July 15.—The boiling of the remains of Lee Wing, the murdered Chinese, to ascertain if a bullet from Lee Lock's pistol has entered his body, has been completed after continuing for nearly 24 hours. Fourteen large buckshot and one 44-calibre bullet were found when the mass was strained. This bullet is of the size of Lock's revolver.

DROUGHT UNBROKEN.

No Relief in Sight and Fears About Crops Being Realized.

Kansas City, July 15.—No relief came Sunday to break the almost unprecedented drought in the southwest. The day was a repetition of the past two weeks with reports from many places in western Missouri, Kansas, Indian Territory and Oklahoma of temperatures over the 100 mark.

With no relief in sight the fears for the crops that have been expressed daily are fast becoming realities and the scarcity of water and generally dry conditions make the element of fire most serious. In Kansas City the government thermometer reached 102, and at Marysville, Kas., 104 was recorded.

In the Northwest.

St. Paul, July 15.—The hot wave continues throughout Minnesota and the Dakotas, Huron reporting 102 and Sioux Falls 100. At the latter place a child went to sleep in the sun and died from the heat. New Ulm, Minn., reports a temperature of 104, with a number of prostrations. The government thermometer here went up to 98. There was a hot breeze from the south most of the day, which greatly added to the discomfort. Professor W. M. Hayes, of the state agricultural experimental farm, reports that the hot weather is doing a great deal of damage to wheat in southern Minnesota, and that chintz bugs are very numerous, and are contributing to the destruction. He believes that but a small crop will be harvested in this section.

Hope Yet For Nebraska.

Lincoln, Neb., July 15.—Nebraska again suffered from the heat, the highest temperature reported by the weather bureau being 102 degrees at 4:30 p. m. Thermometers in the business district recorded 109. Reports show that no rain has fallen in the state during the past 24 hours. Rainfall within two days will yet save the corn crop. The spring wheat and oats crops will be a failure.

Fire in a Hotel.

Butte, Mont., July 15.—A still alarm was turned in from the Butte hotel, a four-story structure on Broadway. When the firemen reached the scene, the building was enveloped in smoke, which appeared to pour from every open window. The firemen were unable to locate the blaze for some 30 minutes and the greatest confusion prevailed. A number of guests on the lower floors succeeded in grouping their way down stairs in the smoke and escaping with nothing but their night clothes. Scores of others were rescued from the upper windows. The hotel management stated to the best of their knowledge all the guests and all the help have been accounted for. Several persons were injured by jumping.

Robbery at San Francisco Mint.

San Francisco, July 15.—Safe expert Charles Walz has discovered that the timelock on the cashier's vault in the mint from which \$30,000 was stolen, does not operate and has been out of order for an indefinite time. This has broadened the scope of the investigation now in progress by secret service men, as it is apparent the robbery may have occurred at any time between 3 p. m. and 9 o'clock following morning.

Accidents at a Street Fair.

Omaha, July 15.—Three serious accidents occurred at the South Omaha street fair. During the bull fight a matador was badly bruised. At the same arena Al Pearson was thrown from a steer, narrowly escaping death, being sent to the hospital unconscious. Roy Boyd, an aeronaut's assistant, accidentally carried 50 feet into the air, fell to the ground, receiving injuries which are believed to be fatal.

Lieutenant Ramsey.

Washington, July 15.—General Chaffee at Manilla has informed the war department of the death of First Lieutenant Charles R. Ramsey, Twenty-first Infantry, from wounds received in action at Lipa, Luzon, June 10. Ramsey was a private in company A, Fifth Maryland volunteers, during the war with Spain, and was appointed a lieutenant in the regular army in July, 1898.

Sad Suicide of a Judge.

Crawfordsville, Ind., July 15.—Judge Judge James H. Sellars, candidate for the Democratic nomination for governor killed himself in his law office here by taking morphine. He left a letter saying that his life was a failure and that his debts were large. His letter was full of praise for his wife. He served on the bench and in the state legislature with distinction.

London, July 15.—The Sun is informed that Acting President Schalkburger's wife has been captured near Waterval, Transvaal colony and sent as a prisoner of war to Pretoria. The Sun's information says the military authorities attach great importance to this capture.

FIGHT ON IN EARNEST.

Ama'gamated Association at War With the Big Steel Trust.

PITTSBURG IS THE STRIKE CENTER.

President Shaffer Says the Strike Was Forced Upon the Association. Not Contending For Wages but For Principle.

Pittsburg, July 15.—Indications are that President Shaffer's strike order to the Amalgamated association members in the employ of the American Sheet Hoop company, the American Sheet Steel company and the American Tin Plate company will be generally obeyed. The great struggle between the Amalgamated association and steel companies is on in earnest.

"The strike was not of our seeking," said President Shaffer. "It was forced upon us. We were not contending for wages, but for principle—for self-preservation. The tin and sheet people will not be able to turn a wheel. We have our forces thoroughly organized and there will be some surprises in store. I have not heard from a single lodge in answer to my strike order, but an answer is not necessary. The order will be obeyed by all our men, but there will be no trouble. Labor organizations have changed. The Amalgamated association is not the association it was 20 years ago, not even five years ago. The men are more readily controlled; in fact, we have our men under control."

Developments indicate that Pittsburg is going to be a pretty lively strike center. The most interest attaches to the Painter mill on the South Side and to that of Lindsay and McCutcheon in Allegheny. Both mills are controlled by the American Sheet Hoop company and have hitherto been aggressively non-union and much depended upon the action taken by the men in these plants. The employees of both mills held open meetings and both decided to strike. The Painter mill employees about 400 men, and the Lindsay & McCutcheon mill 300.

The fight at the Painter mill is to be made the crucial test of the strike. Both sides will make stubborn resistance. The mill is not only important, but the Steel Hoop company has for years succeeded in thwarting the efforts made to unionize it.

President Shaffer was asked if he had set a time when, no settlement having been affected, he would extend the strike to all the subsidiary steel companies of the United States Steel corporation. He said he must decline to make his plans known at present.

It may be said, however, on the strength of reliable information, that the strike within its present limits, is intended as a show of strength.

Should this fail to bring about another conference the strike may be extended to three more companies, and if the trust still refuses to yield, an effort may be made to tie up all the independent companies which dispose of their products to the concerns under the ban of the strike. It is said a secret alliance exists between the Amalgamated and the American Federation of Labor and that as a last resort the latter may participate in the struggle.

Mississippi Crops Damaged.

Jackson, Miss., July 15.—From all over the state come reports that corn, cotton and other farm crops have been seriously damaged because of the long continued drought. Very little rain has fallen since April and none at all except in a few favored spots since June 1. Mississippi made little corn last year because of continuous rains during June and July, and to fail two years in succession is a serious matter to thousands of farmers. The weather has been extremely hot for a week.

Didn't Strike, Just Quit.

Eagle Pass, Tex., July 15.—The engineers and firemen on the International railroad have resigned and business on that road is suspended. The trainmen requested an advance in wages and it was refused, which is the cause of their action. There is no concerted strike but all the men are out. The road is a Southern Pacific property, but the men are paid in Mexican money, and this has greatly depreciated in value, cutting down their wages.

Parachute Failed to Open.

Springfield, O., July 15.—Paul Hague, known as Professor Zeno, an aeronaut, was fatally injured at Island park, falling 200 feet. The parachute failed to open and he fell into a corn field. Hague was married last Thursday to Mabel Brandon, also an aeronaut, who was seriously injured by falling from a balloon at the fair grounds in this city June 22.

St. Petersburg, July 15.—The Rawles, who has been United States consul at Warsaw since 1875, is dead.

AT THE EXPO.

Week of Many Attractions Including Ohio Day.

Buffalo, July 15.—This week at the Pan-American exposition promises to be one of the most delightful yet planned. Military features also being scheduled. Three companies of the Seventieth National guard of Virginia, and Armours cadets, of Chicago, are already here. The Eighth Ohio and the Twenty-second New York will go into camp at Camp Fillmore.

Tuesday, July 15, will be Chautauqua day with speakers from all parts of the country, Frank Chapin Bray, editor of the Chautauquan, and Professor S. H. Clark, among others. The musical part of the program includes numbers by William S. Sherwood, of Boston, the pianist; Sol Marcoosan, violinist, and L. G. Flagler, organist, in addition to vocal numbers. Wednesday will be electrical contractors' day.

A large number of innovations has been sent out by the Ohio Pan-American commissioners for the exercises of Ohio day, July 18. A big attendance is anticipated as there are to be imposing ceremonies and excursions at low rates will be run by the railroads. In addition to the exercises in the temple of music at 11 a. m. Thursday, when many distinguished Ohio statesmen will appear on the platform, an informal musical is planned for the afternoon at the Ohio building. There also will be a reception at the Ohio building in the evening, and a display of fire works will conclude the celebration.

Friday will be Eagle day. Several thousand members of the different agencies located all over the country will be present.

Mrs. Hanna Got Away.

New York, July 15.—Senator Hanna arrived here from Cleveland and accompanied the detectives to the Hotel Savoy. When he arrived there he was told that Mrs. Hanna had sailed with her children on the steamer *Menominee*, which cleared the bar bound for London at 10:50 in the morning. The manager of the Hotel Savoy said Mrs. Hanna left the hotel at 7 a. m. Later it was learned that staterooms on the *Campania* had been engaged for Mrs. Hanna. A reporter who went to the steamer found that the Baroness De Polland, a friend of Mrs. Hanna, was on board, but no information could be obtained as to Mrs. Hanna. Mr. Hanna went to the *Campania* and entered into a consultation with the baroness. At this time a stateroom engaged by Mrs. Hanna was locked and it was hinted Mrs. Hanna was inside. The door to the stateroom was guarded by one of the ship's crew and no one was allowed to approach.

Prize Money Distributed.

Mount Airy, Ga., July 15.—Judge Speer of the United States circuit court handed down his decree distributing the prize money arising from the capture of the British steamship *Adula* during the Spanish war. Judge Speer considerably reduced the allowances for the officers of the court made by the master to whom the question had been referred and has ordered that the sum of \$30,000 paid into the treasury of the United States be distributed as prize money. The *Adula* was owned by the Atlas Steamship company and chartered to a Spaniard, Don Jose Solis. The capture was made by the Marblehead, Commander McCalla, while the *Adula* was attempting to run the blockade of Guantanamo bay during the Spanish-American war.

Ellis Glenn Files a Suit.

Parkersburg, W. Va., July 15.—The Glenn case was resumed with Ernie Byers on the stand. He roomed with Bert Glenn all the time he lived in Williamstown. He said he never knew Glenn was not a man. He had visited gambling dens, saloons and all other places with Glenn many times and acted like a man in every way. He said Glenn had false teeth, both upper and lower. The court room was again crowded with men and women.

A suit for \$50,000 damages has been filed in the United States circuit by Ellis Glenn against William Richardson and Julius Richardson, his son, for the alleged kidnaping of the prisoner at Litchfield, Ills., last year.

Endowment Rank Muddle.

Chicago, July 15.—John A. Hinsey, who as a result of an investigation of the affairs of the Endowment Rank of the Knights of Pythias recently, was permitted to resign from the board of control, was again under fire. Officers of the Knights of Khorassan, the pleasure seeking branch of the order of which Hinsey was imperial prince, held a secret session at which it was decided to ask him to resign. It was also decided to call for an examination of the books. Although Hinsey was a prime mover in founding this branch of the Knights of Pythias, he was not allowed to attend the meeting.

Sioux Falls, S. D., July 15.

Dexter J. Knapp, a prominent resident of the state, fatally shot himself in the head with suicidal intent.

FOUR BLOCKS IN RUINS.

Fire Demon's Orgie of Destruction Lasted Only Three Hours.

EVERYTHING BURNED LIKE TINDER.

Water Supply Inadequate and Drought Prepared the Way for the Flames. Buildings Dynamited to Check the Conflagration's Progress.

Enid, O. T., July 15.—Four blocks of business houses on the public square were destroyed by fire in about three hours. The water supply was inadequate and it was necessary to blow up buildings with dynamite to check the flames. Owing to the continued drought everything burned like tinder. A light wind blowing from the southeast saved the eastern part of the town. The total loss is estimated at slightly over \$100,000. The insurance will be light. The heaviest individual losers are Gensman Brothers, \$25,000, and Crandall & Grubb, \$30,000.

The fire started in a two-story hotel building near the southeast corner of the square owned by John Benton and spread quickly, burning Gensman Brothers' hardware store, Snyder's furniture store, Cramer's restaurant and hotel, Mauldin's furniture store, the Central hotel, a butcher shop in which \$1,000 in cash was consumed, the Enid Carriage works, the Veakey shop and three small buildings adjacent, the wholesale establishment of Crandall & Grubb, the St. Joe hotel, the Armour Packing company's building and the entire south block of that square, consisting mainly of frame buildings, among which were the Montezuma hotel, the Clivinger building, the Weekly Events printing office and the Weatherly building.

Enid is a town of about 6,000, the county seat of Garfield county. It was established at the opening of Oklahoma over ten years ago and is one of the most prosperous towns in the territory.

Bookwalter's Prediction.

London, July 15.—John W. Bookwalter of Ohio, who sailed for the United States on the Hamburg-American line steamer *Columbia*, spent a few days in London after a 2,000 mile bicycle trip through southern Europe. Mr. Bookwalter spent the greater part of his time living among and closely studying peasantry, and he is thoroughly convinced that a crisis is imminent between the urban and rural populations of the world. In the rise in the price of grain, he sees the beginning of a struggle of the agricultural element against the concentration of capital in cities. This movement he believes will commence in America, where he believes the economic conditions are inferior to those of Germany and France, especially the latter, which he maintains is the soundest country in the world, owing to the distribution of wealth between the agrarian and metropolitan classes.

Senator Lodge Aboard.

London, July 15.—United States Senator Lodge has arrived in London, but will stay here only a few days and then proceed to Bayreuth and return here in September. The senator said: "This is purely a holiday trip. I do not intend to meet any English statesmen or to discuss any matters connected with foreign affairs. As regards the Nicaragua canal, I suppose there will be a lot more talking before anything is done. The matter of the chairmanship of the foreign relations committee is merely a matter of seniority. If Senator Frye retains his other chairmanship, then Senator Cullom will take the position. If he retains his other chairmanship I will be head of the foreign relations committee. What Senator Frye and Cullom intend to do I do not yet know."

Woman Sentenced to Die.

Louisville, Ky., July 15.—Sentence of death was passed upon Julia Traube, a young negress, and the date for execution fixed at November 15. She received the sentence without displaying any emotion. When asked if she had anything to say why sentence should not be passed she indifferently remarked: "I have not." The woman's crime was the cold-blooded murder of her lover, Edward Evans. The condemned woman was intensely jealous of him, and when she learned one day that he was at the home of a rival she went there, called him into the hallway and stabbed him to death.

R G DUN & Co. show June failures to be heavier than for previous months, and the total was \$1,518,817 larger than last year in manufacturing. What has become of the McKinley-Hanna prosperity?

THE PILGRIM, for July, in criticising the decision of the Supreme Court of the United States in the Porto Rican cases, says:

"The curious and complicated logic by which the court finally came to the rescue of the administration gives humorous pertinency to the reflection of the philosophic Mr. Dooley:—

"There's wan thing I'm sure about."
"What's that?" asked Mr. Hennessy.
"That is," said Mr. Dooley, "no matter whether th' Constitution follows th' flag or not, th' Supreme Court follows the election returns."

DR. C. S. SAVAGE, of Galena, Kan., favors the BULLETIN with a late copy of the Joplin, Mo., Daily Globe, giving an account of the terrible drought that has prevailed for some time in Kansas, Western Missouri, Oklahoma and the Indian Territory. At some places in Kansas there has been no rainfall whatever for nearly three months. The present is the worst drought since 1860, when New England sent food to the settlers of Kansas. However, the past few years have been very prosperous ones, and even now the Kansas farmers are harvesting one of the largest crops of wheat, if not the largest, in the history of the State. A great many counties sent word that with rain corn will be half crop; without rain soon, no yield. Hay is selling at \$20 a ton in Kansas. The temperature last week was the highest in years. It must have been a wave of this hot air from Kansas that swept over the Ohio valley last Thursday.

THE REPUBLICAN factions in Louisville are having a hot time of it in their struggle for the control of the "machine," in that city especially, and the State in general. The amusing feature of the contest is to see Dick Knott, the erstwhile Democrat, leading the fight against the DeBoe-Sapp crowd. With him are lined up Combs, Roberts, Boering, Bradley and that crowd. DeBoe threatens to go to Canton and "tell Mr. McKinley how the campaign was lost in Kentucky last year through the management of Leslie Combs and to show the exact distribution of the \$270,000 allotted for campaign purposes for this State, as well as the portion of the sum which was received by Dick Knott."

Everybody knew the Republicans spent a big corruption fund in Kentucky last year, but DeBoe's statement that it was over a quarter of a million dollars will open the eyes of some people to the tactics of the corrupt and desperate gang the Democrats had to down.

HONORS FOR SCHLEY.

Medal to be Presented to the Rear Admiral—Hero of Santiago.

MEMPHIS, TENN., July 13.—The Commercial Appeal to-morrow will open a popular subscription for the purpose of procuring a medal to be presented to Rear Admiral W. S. Schley, "in recognition of his distinguished services in the sea fight off Santiago in the recent war with Spain."

PAN-AMERICAN EXPOSITION, Buffalo, N. Y. \$8.00 ticket on sale each Tuesday, with final limit of Thursday following date of sale leaving Buffalo.

\$13.25 ticket on sale daily, with final limit of ten days including date of sale.

\$16.35 ticket on sale daily, with final limit of fifteen days including date of sale.

\$18.25 ticket on sale daily, with final limit October 31st, 1901.

Tickets via the Big Four will be honored one way, going or returning, via steamer between Cleveland and Buffalo.

MR. ED. RICHESON, the grocer, is enjoying a few days rest and recreation in the country, and in his absence Mr. C. H. Frank is looking after the store.

Found the Murderer Dead.

Dowagiac, Mich., July 15.—The body of Horace Peters, who shot and killed Peter Smith Thursday, near Sister Lakes, 11 miles from here, was found by a searching party that tracked the murderer. Peters had shot himself with the same gun he used to shoot Smith. A feud existed between the two men several years.

MILLIONS OF DEPOSITS

In Kentucky Banks Not Listed for Taxation—Reform Needed to Reach the Case.

A tabulated statement was published in the Louisville Courier-Journal Saturday showing that taxes due on individual deposits in the banks in this State, which the depositors failed to list with the County Assessors for the years of 1900 and 1901, are \$578,584.04. This sum is due on deposits amounting to \$121,797,168. The attention of the General Assembly will be called to this abuse of the revenue laws of the State in the Auditor's biennial report and Governor Brckham in his message to the Legislature will probably recommend amendments to the existing laws on the subject.

The Auditor's tabulation shows that for the year 1900 only 12.6 per cent. of the amount of cash on deposit in banks was listed for assessment, and that only slightly over 13 per cent. of the amount on deposit on September 15 last was assessed for State and county purposes.

A comparison showing the difference between the amount of daily deposits of cash and the amount assessed as in banks for 1900 shows that there was an average daily deposit in the various banks of the Commonwealth of \$69,363,173, of which only \$8,773,306 was assessed for taxation, leaving \$60,893,232 that was not assessed and on which no taxes for county or State was paid.

For the fiscal year ending June 30, 1901, the average daily deposits held by the various banks amounted in the aggregate to \$69,952,624, of which only \$9,316,200 was assessed for taxation on the 15th of September, 1900, leaving a balance of \$60,903,936 not assessed.

Both tables together show that on the 15th of September, 1899, and 15th of September, 1900, there was \$121,807,168 in cash on deposit in banks that was not assessed for taxation, and on which State and county taxes have not been collected.

The figures for 1900 show that the bank deposits in Mason County were \$1,222,000, of which only \$59,561 was listed for taxation. For year 1901, the deposits are placed at \$1,431,000, of which only \$23,225 was listed with the Assessor.

THE WASHINGTON LIFE INSURANCE COMPANY has paid to Mrs. Eleanor Hord, widow of Francis T. Hord, of Indianapolis, who died of an overdose of morphine, \$50,000. Policies in other companies amounting to \$16,500 have already been paid. Mr. Hord also carried \$70,000 in the Mutual Life Insurance Company of New York, which has not yet been adjusted. This \$70,000 is in three policies, two of ordinary life, \$10,000 each, and the third calling for \$50,000 on the installment plan, paying annually to the widow \$2,500—5 per cent. on the face value of the policy—up to \$50,000 in twenty years, or 5 per cent. during life. This might mean \$100,000, as Mrs. Hord has, at her age, a life expectancy of fifty-six years.

A gentleman hailing from Boston entered the Y. M. C. A. Saturday and asked to be directed to a hotel. "Hadn't you better lay aside your artillery?" inquired Rev. F. W. Harrop, who was in charge of the rooms. The stranger had a big gun and a lot of cartridges strapped about him. He explained that he had been attending the Endeavor convention at Cincinnati, was on his way home, and as he intended stopping off in Maysville he thought it best to come prepared, as he had heard a great deal about "this moonshine country." When he added that he had been talking with Charley Ryan, of the C. and O., while in Cincinnati, the Pan-American Exposition.

Relatives in Indianapolis, visiting us this week, told of his \$5,000 salary from railroad position, also of his children's success. Good accounts are also given of Maysville men, the McDonalds, Messrs. Hoechlin's nephews. One is said to be in an enterprise that will make him independent, another's wife will inherit \$30,000."

At Glasgow, the damage suit of J. M. Richardson against R. W. Knott, editor of the Louisville Post, and Post Publishing Company, was settled by the Post retracting the article complained of and paying all costs of suit, including plaintiff's attorneys' fees, all personal expenses of plaintiffs in the suit and confessing judgment for one cent and costs. The suit grew out of publication in the Post to the effect that the Board of Prison Commissioners, of which J. M. Richardson is a member, had sold the State penitentiary beef contract to the Armour Meat Company. It is estimated that the suit cost the Post \$2,000.

Mutton Versus Pork.

[By J. S. Trigg.]

There is no better meat food for man than good mutton. If America would substitute mutton for the pork which is eaten by its people, the doctors would half starve, men would quit pounding their wives, bottle babies would be unknown, the divorce courts would go out

of business, the term of life would be increased, and much of the cussedness of the country be prevented, to say nothing of trichina and all that. Still, we never expect to see the day when the delicious odor of roast pork and apple sausages, boiled ham and fried sausage will not be enough to overcome any and all arguments why people should eat mutton rather than pork.

J. A. Hinsey, former President of the Board of Control, Endowment Rank, K. of P., has issued a lengthy statement, in which he claims that the attacks made on him were the outgrowth of enmities engendered by his opposition to the election of some of the present officers, and explaining in detail the transactions for which he has been so severely criticised.

CINCINNATI TOBACCO MARKET.

Very Little of the Better Grades Offered the Past Week—Prices Fairly Maintained on the Lower Grades.

Week.	1901.	1900.
Offerings of old.....	1,124	2,283
Offerings of new.....	218	671
 Actual sales.....	906	1,612
Per cent. rejections.....	19.5	21
Receipts.....	1,619	2,429

The 1,124 hds. offered averaged \$7.17 per 100 lbs., as against \$6.88 for the 521 hds. for the previous week, and \$8.56 for the 2,283 hds. for the corresponding week of last year.

The weekly review of the warehouse interests says in part: "With a full week and sales beginning at 8:30 o'clock the burley market proved to be satisfactory in prices and in offerings. True, there is a noted difference in the offerings as compared with last year, but the extreme hot weather has made it dangerous for farmers and shippers to prize their tobacco and send it to the market. This is especially true of the better grades of tobacco, of which variety there was scarcely any offered this week. The general tone of the market was steady throughout the week, with Thursday's sale perhaps stronger than any other. The quality of the tobacco offered was

the lower grades, and these kind sold well. What good tobacco was offered did not seem to call for very high prices, these varieties lacking bidders at the present time."

Corduroy grades were the favorites and received much attention, while trash and common fillers were in good demand. Red tobacco was also very strong, the short red tips being considerably higher than last week.

The medium leaf that was offered sold very well, but rather at inside prices. Lugs were strong, particularly when they showed color and when they were in good condition. There was no fancy tobacco offered, and consequently no market to quote on them.

It is undoubtedly true that good sense and good taste are daily outraged by the sensational press in the exploitation of crime through columns of highly colored stories embellished with crude and impossible pictures. It is not clear, however, that there is any way to safely remedy the evil or that the remedy would not be worse than the evil itself. It is far better that the yellow press should continue its daily output of gross and vulgar absurdities in the name of news than that the respectable newspaper should be stopped from the exposure of villainy, the certain purpose to which a law aimed at the evil complained of would be put.

Mr. John Y. Dean has returned from a trip to Pittsburgh and other points.

Beaten by Soap and Water.

From the Argonaut. At one of their joint discussions, which took place in Kentucky some years ago, Tom Stuart, then editor of the Winchester Democrat, gave his opponent, I. N. Boone, a descendant of the great Daniel, a blow that fairly knocked him out of the race for the Legislature. Boone was making his regular speech, and at the proper place in it he referred to the matter of his relation to the toiling masses. "My friends," said he, holding up a pair of hands that looked as if they had not been washed in a week, "to let you see for yourself that I am a horny-handed son of toil; I ask you to look at these hands, and," turning to Stuart, "I would ask my pale-faced young friend from the city what they think of them?" Stuart was on his feet in a minute. "I do not desire to embarrass my distinguished opponent, ladies and gentlemen," he said with a bow, "but I would say that I think that they need soap and water." It was such an apparent case that the crowd took hold at once with a shout, and Boone was completely floored, and later Stuart was elected.

I have a new spray which is adapted for all spraying purposes, from spraying tobacco to keeping flies off of stock. Price 75c. each. Also powder blowers for putting Paris green on dry. Paris green and other insecticides.
